

## Developing Cloud Native Applications

### Module 5: REST HTTP Methods

Method	Description
<b>GET</b>	Requests data from a specified resource.
<b>POST</b>	Sends data to a server to create or update a resource.
<b>DELETE</b>	Deletes a resource.
<b>PUT</b>	Sends data to a server to create or update a resource.
<b>OPTIONS</b>	Describes the communication options for a target resource.
<b>HEAD</b>	Similar to GET but without a response body.
<b>CONNECT</b>	Creates a tunnel to the server.
